**COMPOSITE  
DOORS**

**ADVANCED  
GROUP**

**Advanced Composite  
Doors - giving homes  
a quality finish that  
is safe and secure.**

The Advanced Group are based primarily in Glasgow, but have been perfectly fitting Scotland with quality UPVC Products for over 28 years. We guarantee that we are providing the best Triple Glazed uPVC windows, doors and conservatories at no additional cost to our customers and with our excellent 0% deposit finance packages it's even more affordable.

# Introducing...

## Our new 70mm Triple Glazed Double Rebated Door Option.

Innovation and quality is at the heart of everything we do. We have designed and developed our new 70mm door based option on both *security* and *thermal efficiency*.

Our new 70mm door not only retains its unique handcrafted glass and grain effect colour, but enhances the security with 70mm leaf thickness and thermal efficiency with the introduction of the 50mm triple glazed glass unit.

## CHOICE

The Composite Door range is designed for high aesthetic appeal. Doors feature a genuine grain-effect finish, giving the appearance of a traditional timber door whilst delivering the benefits of modern materials. Personalise your door with a colour of your choice, including contemporary RAL colour options, or a bespoke, handcrafted decorative glass design.

### GLAZED DOORS

The Composite collection features a range of glazed door styles, from dual glass panels (New York) to arched glazed options (Rio, Moscow).

### DECORATIVE GLASS

Each decorative glass unit is handcrafted in our in-house glass studio and includes a range of bevel, lead, resin and sandblast designs. We also offer a range of textured and obscure glass options.

### LETTERBOX

Letterboxes are fitted centrally on solid and glazed door styles as standard. On cottage styles, the letterbox can be fitted centrally or at the bottom depending on style.

### DOOR THRESHOLDS

Composite doors are available with standard PVCu thresholds or a 'Stormguard' low threshold for excellent weather protection.

## ENERGY EFFICIENCY

Composite Doors are designed for maximum thermal insulation, ensuring energy is retained inside the home. All doors and glazing units within the Composite collection offer excellent energy efficiency properties; helping you save on home heating bills and reducing carbon emissions.

### DOOR U-VALUES

Our range of glazed composite doors achieve a U-value of 1.6 W/m<sup>2</sup>K. If you select a solid/unglazed door style, U-values as low as 0.9 W/m<sup>2</sup>K can be achieved.

### GLAZING UNITS

A range of double and triple glazed units are available, featuring high performance coated glass. All glazing units offer excellent thermal insulation, weather resistance and noise reduction.

### HEAT LOSS

The image on the left shows a Composite Door; the blue areas indicating lower heat loss. Compare this to the image on the right of a timber door; red areas indicating a high rate of heat loss.

### ENVIRONMENTAL

Composite Doors help reduce harmful carbon emissions. In fact, our doors achieve a 'Global Warming Potential' score of less than five, and an 'Ozone Depletion Potential' score of zero.

## STRENGTH & SECURITY

Advanced manufacturing techniques ensure that all Composite Doors are extremely robust, durable and long lasting. Door leafs are backed by a 10 year performance guarantee. Keeping your home safe and secure is of paramount importance, which is why all our Composite Doors are designed for enhanced security. Only the toughest materials are used to form our door leafs, making the doors virtually impact resistant. All doors feature multi-point locking mechanisms and hardware as standard, and are fitted to ultra-strong door frames.

### DOOR MATERIALS

Composite Doors are constructed from high density CFC-free polyurethane foam and layers of laminated veneered lumber and finished with GRP (glass-reinforced polyester) inner and outer skins.

### DOOR FEATURES

Available in 44mm or 70mm door leaf thickness, Composite Doors are extremely durable and robust. For extra safety, the door glazing units may be toughened or laminated.

### HOOK LOCKS

For extra security, a hook lock option is available. 'Hooks' are situated at the top and bottom of the locking system and slot firmly and securely into keeps located on the door frame.

### DOOR PERFORMANCE

All components of the composite door are designed for enhanced durability, including: weather-resistant polymer materials and advanced hardware systems.

# Boston

## BOSTON STYLE

The Boston is a solid leaf option and is similar in style to the New York door with four square shaped panels. Solid doors are suitable for a range of applications.

## CALGARY STYLE

The Calgary is a solid door style which features the popular 'tongue and groove' effect associated with the cottage style door range. Personalise the Calgary style to a colour of your choice.

# Calgary

Example Shown  
Code: MC-1B-05

### TORONTO STYLE

The Toronto style offers a traditional alternative to the Moscow; the arched glazing area features a 'sun burst' style glazing cassette as standard which can be fitted with clear or textured glass.

# MOSCOW

With its decorative top arched panel, the Moscow offers the high visual appeal of the Rio, whilst still maintaining security and privacy.

TECHNICAL INFORMATION

Door Leaf	CFC-free Polyurethane Foam, layers of timber with impact-resistant Glass Reinforced Polyester (GRP) external and internal skins. Single and double rebated door leafs are available (see 'What's available?' section on individual style pages). Single rebated doors = 44mm thickness. Double rebated doors = 70mm thickness. Double rebate available on all styles except codes LB and BS. Please check double rebate stock prior to ordering. Min/max door size information on pg 43.
Door Leaf Colours	Please select inside and outside colours for the door leaf (standard will be white inside and coloured outside unless stated). Standard colours: White, Cream, Red, Blue, Green, Oak, Rosewood & Black (brown/black also known as 'Bog Oak', to match Inliten black frame). Spray-painted RAL colours also available: Jet Black (9005), Graphite Black (9011) Charcoal Grey (7016), Silver Grey (7001) and Chartwell Green (BS14C35). Other spray painted colours available - please check RAL codes with Advanced before ordering.
PVCu Frame	Inliten PVCu 70mm system with steel reinforcement. Doors will be mounted on a white frame unless stated. Door frames colours are available to match door colour range: Oak, Rosewood, Black, Cream, Red, Blue, Green, Charcoal, Silver Grey or another RAL colour of your choosing. NB: frame colours may not be exact match to door leaf.
Locking	Cylinder locking system fitted as standard. High-security, anti-snap cylinder lockings also available at an extra charge. Locking systems designed to meet the requirements of PAS 24 and Secured by Design (laminated glass must also be selected to achieve this).
Handles	Lever/lever handles fitted as standard. Lever/pad and thumb-turn options also available. White handles fitted on white doors as standard. Specify handle colour on coloured doors. Available in white, black, gold or silver. Bar handles available on selected cottage door styles (please check handle sizes prior to ordering) - NB: glazing unit may be fitted in a different position and longer turnarounds/surcharges may apply.
Hinges	Butt hinges on single rebated doors and flag hinges on double rebated doors. White hinges as standard on white frames. For coloured frames, please choose hinge colour: white, silver or gold. Black hinge option only available with double rebated doors.
Door Furniture	Letterboxes available in white, black, silver and gold. Urn knockers (with/without peephole) are available in black, silver or gold. Scroll and Lion knockers available in black or gold only. Numerals and chains may also be supplied as a non-fitted accessory.
Glazing	Glazing unit is 24mm on single rebated doors and 50mm on double rebated doors. Double and triple glazing options available - refer to notes under door styles for glazing size information, some designs not available with double rebated door. Range of textured glass options also available. Georgian Bar available in White, Cream, Oak, Black and Rosewood.
Backing Glass	Backing glass for glazing units are available on most styles except codes featuring CL, EL, SP, PR, DC, CR, CS & RM.
Sidelights	Sidelight glass designs will be based on your chosen door glass design and at the discretion of the manufacturer. Custom designs may be available (extra charges/longer turnaround times may apply). To order place the code "SD" in front of your chosen door/glass code. NB: Matching sidelights not available with codes featuring CL, EL, SP, PR, DC, CR, CS & RM
Threshold	76mm PVC threshold as standard, 50mm & 60mm also available. Stormguard thresholds available as optional extra.
Guarantee	10 year guarantee on door leafs, 15 years on PVCu frames and 1 year on ironmongery. Composite doors meets all the stringent British Standard tests compliant with Parts L and M of Building Regulations.
Ordering Information	Step 1 - Select door style ie: New York, Step 2 - Select door leaf colour (specify inside and outside colours), Step 3 - Select glass design, Step 4 - Select backing glass, Step 5 - Select door frame colour, Step 6 - Select door furniture, Step 7 - Select sidelights (if required)
